DISTRICT COURT.

Adjournment to Tomorrow—Some Indictments—A Crowded Docket.

The Morrison case again occupied the attention of the court this forenoon, when it was finished, the case against Mendonhall, for obtaining money under false pretenses, is likely to conclude the present term of court. It is necessary for the court to leave here on Friday morning to reach San Juan county on Monday, and hence tomorrow will be the last day of the term here.

At this term the grand jury has filed more than 100 indictments for alleged vagrancy and violation of the Sunday law. A. Kirschner and Arthur Fischhoff, indicted for maintaining a gambling house within three miles of the plaza, have given \$100 bonds each and will fight the case at the next term of court. Among other indictments is one against Estepillo Padilla, justice of the peace, who is charged with embezzlement of funds collected by him in the shape of fines, and which he should have turned over to the county within sixty days. Francisco Baca and Alejandro Forrester are indicted for attempting to bribe a witness. It is charged they undertook to prevent Monica Martinez from giving testimony in a case relative to an assault upon one Catalina Vaz. Other indictments are: Juan Martinez y Romero and Fernando Serna, for wife abandonment; Serilo Abeyta, for murder; and Manuel Rivera for assault upon his wife; Manuel Rodal, larceny and defacing stock brand.

A great deal of business is docked which should have attention at this term, but time will not permit of taking it up, and it is the impression among many of the attorneys that Judge Whiteman may all a special term the latter part of October.

Loretto Academy.

Attention is directed to the new advertisement of the Loretto academy for girls, to be found elsewhere in this issue. During vacation this well appointed institution has been thoroughly renovated and put in readiness for more comfortably accommodating a larger number of pupils than before. The fall term opens next month. Mother Francis, who is beloved the territory over as the sister of the late lamented Archbishop Lamy, is in charge of this worthy institution. The superior climatic advantages of Santa Fe should have much weight with parents in determining where to school their children. In case a mother has both boys and girls to be schooled, it is here convenient to send the boys to St. Michael's college and their sisters to the Loretto academy, so near at hand, thus giving them opportunity to frequently meet each other.

Snatch of Pipe.
Produced from the inactive and nutritious juice of California figs, combined with the medicinal virtues of plants known to be most beneficial to the human system, acts gently, on the kidneys, liver and bowels, effectually cleansing the system, dispelling colds and headaches, and curing habitual constipation.

THE LEVY FIXED.

The County Board has a Brief Session and Adjourns to October 1.

The county board held a brief session today and fixed the tax levy as follows: For general purposes, \$1.50; for school purposes, \$1.00; for interest on bonded bonds, \$1.00; for interest on court house warrants, \$1.00; for interest on U. S. & N. R. R. bonds, \$1.00; for interest on outstanding warrants, \$1.00; for interest on current expense bonds, \$1.00.

In addition to this a levy of 5 mills on the bonded in the 3d precinct and 2 mills on the bonded in the 4th precinct for interest on local school bonds was ordered. Upon examination it was found that no order restraining the board from levying a tax on interest on the court house warrants had been made, as was supposed yesterday by the district court, hence that levy was made. The board adjourned not to meet again till October 1.

The Santa Fe Copper Company.
Annual Meeting.—Notice is hereby given that the annual meeting of the stockholders of the Santa Fe Copper company will be held at the office of Francis Downes, in the city of Santa Fe, N. M., on Wednesday, the 31st day of September, 1899, at 12 o'clock noon, for the election of directors for the ensuing year and for any other business that may legally come before the meeting.

J. C. Watson, Secretary.

Job Printing.
Merchants and others are hereby reminded that the New Mexican is prepared to do their printing on short notice and at reasonable rates. Much of the job printing now going out of town could come to the New Mexican office. There is no better excuse for sending out of town for printing than there is for sending away for groceries or clothing. Our merchants should consider these things. The New Mexican is acknowledged the leading paper of this section. The patronage of the people will enable us to keep it so.

OFFICIAL BITS.

Paulino Montoya has been appointed postmaster at Copper City, Bernalillo county.

Henry W. Easton, of Rio Arriba county, and Francis Knox, of Colfax county, have been appointed notaries public.

One of the most courteous and gentlemanly officials of the territory is Judge James H. Walker, of the U. S. land office, and we trust it will be some time before his head drops beneath the guillotine.—Chama Northwest.

The board of commissioners of Colfax county entered upon their official proceedings an order to the effect that the doing of the territorial land of equalization be ignored, and illegal, and the Maxwell grant taxed to the value of \$2,000,000.

Only Bernalillo and Socorro counties have as yet failed to make returns to the territorial secretary regarding the election for delegates to the constitutional convention. Grant county sent 211 votes and her delegates are Judge Bristol, R. B. Hart and Judge Ball. Sierra sent 240 votes and elected as delegates Richard Mautsfield White and Nicholas Galles.

Articles of incorporation for the Silver City, Pinos Altos & Mogollon railroad have been filed at the secretary's office. The line is designed to connect Pinos Altos, the Gila river section and Cooney's camp with Silver City. The incorporators are W. J. Newcomb, H. H. Betts, Benjamin Harrison, Travers Stephens and John A. Miller, who have subscribed for \$30,000 worth of the capital stock.

John C. Root, of Belmont, Wis., a friend of the head of the state, arrived yesterday and has been named as chief clerk at the surveyor general's office under the new order of things. Capt. Hubert and Mr. Root began this morning to take an inventory of the office. It will require most of the week to finish this

THE BOND CASE.

Another Chapter in the History of the County's Railroad Bonds Filed by Mr. Coler.

At its meeting on Saturday last the county board, by vote of Commissioners Wyllis and Martinez, adopted the following:

Whereas, It has come to the knowledge of this board that the case of W. N. Coler, Jr., vs. the board of county commissioners of Santa Fe county has been decided in the district court against the county of Santa Fe; and

Whereas, The matters and things involved in the issue are of so much importance to the tax payers of Santa Fe county; now, therefore, be it

Resolved, That the district attorney be requested and required to appeal the said case to the supreme court of the territory, and that S. R. Laughlin, clerk of the court, and Thomas Smith, esquire, be and they are hereby authorized and requested to aid the district attorney in said appeal case to the said supreme court of this territory without delay, and to do such other things in and about the said case as their judgment are right and proper for the best interests of the county of Santa Fe.

Yesterday morning District Attorney Twitchell appeared before the board and referring to the above order, requested that the attorneys named therein be required to file the bond for said appeal and they will prosecute the Coler case without cost to the county. Three hours later, the board having ignored the suggestion of the district attorney, Mr. Twitchell again addressed the board, this time in terms quite emphatic. He said the attorneys could not legally appear as the county's representatives without his consent, and that unless the board saw fit to require of them the stipulation suggested by him, he would take a part in the fight himself, and he would appear before the district court and object to these attorneys representing the county at all. As yet the board has not required such stipulation from Messrs. Laughlin, Gildersleeve & Preston and Smith.

The Coler Case in Court Again.
In the district court this morning the county's motion for a new trial was overruled. A motion for an arrest of the \$87,000 judgment was filed immediately and notice of appeal to the supreme court given. Some time this afternoon it is probable that the representatives of Mr. Coler will ask the court to name the county board to make the levy to meet this judgment.

RESERVOIR SITES.

The Geological Survey Must Designate Lands Before they are Reserved from Entry.

The local land office today received instructions from the general land office touching the action of the law where government reservoir sites have been located. The statute provides that all lands which may "hereafter be designated" or selected by the geological survey as sites for reservoirs, ditches or canals for irrigation purposes, and all lands made susceptible of irrigation by such reservoirs, ditches, etc., shall not be subject to settlement or occupation until further legislation is had or the president opens them by proclamation.

That is, wherever the geological survey has made its surveys and settled upon locating reservoirs no entries can be made.

Since the geological survey is not working very hard in New Mexico, seeing fit to confine its labors chiefly to Nevada and California, this order practically has little effect in this territory. Thus far the geological survey has located but one natural reservoir district in New Mexico, and that is along the Jemez valley, extending south and including Albuquerque. Maps of the district are on file in Washington, and it is supposed the territory covered by that survey has been reserved from settlement, but the local land office has no official information on the subject. The land included in the Jemez survey covers townships 9 to 13, inclusive; ranges 1 west, and 1, 2, 3, 4 and 5 east. It runs twelve miles east and twelve miles west of Albuquerque, three miles south and about forty miles north. That is the only district in New Mexico that thus far can be "segregated" from the public domain.

From reading telegraphic reports on this subject many people were led to believe that all arid lands and all possible reservoir sites had been reserved for the exclusive use of the government. This would have had the effect of destroying all private enterprise in the shape of water development; but such is not the proper construction of the law, and until the geological surveys are made it is presumed entries for arid lands will be received at the land offices as usual.
